 Weekly report update.

Sreekar is preparing his next presentation for Beta Prototype.

Reassigning Role :
Denzil, Abhirup and Anjan are working on
Essential requirements: Export data
Finished: Easy to enter Numbers, Help menu.
Nice to have features: Notifications. Improve chart.
Finished: Select Currency in settings.

Testing:
Sreekar and Harsha have been carried out the responsibility of testing the app and will be working on the materials of the presentation to beta prototype

Weekly Report & Blog:
Denzil has retained the responsibility to continue with the blog and weekly report. However,
Team will be in contrast with the materials to be laid on the contents for the respective fields.

During our presentation our MVC model was not adequate for our explanation, therefore, we have made changes to the incorporated diagram in addition to it, Naming conventions is going through some changes in order to make it more readable and the implications have been updated on the blog for The Advance prototype.
